SCO AND TEAM1 SYSTEMS PARTNER TO DELIVER CUSTOM SCO SOLUTIONS

Team1 Systems Becomes SCO Distributor for Delivering Custom SCO Whitebox Solutions for SCO resellers and customers

LINDON, Utah —Dec. 18, 2006—The SCO Group, Inc. (“SCO”) (NASDAQ: SCOX), a leading provider of UNIX software technology and mobile services, today announced the company has entered into a distribution partnership with Team1 Systems to provide custom SCO UNIX solutions for Team1 Server systems. Team1 Systems becomes one of SCO’s major U.S. distribution partners for providing resellers with turn key SCO UNIX systems that can quickly and easily be delivered into customer environments.

“Team1 looks forward to the opportunity of working with SCO in an elevated role as a major distributor of certified custom systems running SCO UNIX,” said Debbie Dora, president, Team1 Systems, Inc. “Resellers should feel confident in deploying our joint solutions because of the quality and accessibility of our products, as well as the service and support that we provide both before and after the sale. With Team1 Systems and SCO, resellers will have a proven business solution that they can deploy to their customers with confidence. Because we have such a strong reseller focus, we are a better alternative to large commodity hardware suppliers who would rather work direct with end-users than through the reseller channel.”

“We have worked with Team1 since their establishment and we’re confident that this partnership will further benefit SCO resellers who are looking for custom SCO UNIX solutions,” said Alan Raymond, vice president of Americas sales, The SCO Group. “Team1 offers a nationwide presence for all of SCO’s resellers, an excellent UNIX technical support team, and a strategy that ties into SCO’s mobile technologies.”

In 2006, Team1 Systems was recognized by Computer Reseller News as one of the top 50 system builders in the U.S. For more information on how to order custom SCO UNIX solutions through Team1 Systems, call toll-free 1-888-832-6146 or e-mail us at sales@team1systems.com.

About SCO

The SCO Group (Nasdaq: SCOX) is a leading provider of UNIX software technology and mobile services, offering SCO OpenServer for small to medium business, UnixWare for enterprise applications, and Me Inc. for mobile services. SCO's highly innovative and reliable solutions help millions of customers grow their businesses everyday, from SCO OpenServer on main street to UnixWare on Wall Street, and beyond. SCO owns the core UNIX operating system, originally developed by AT&T/Bell Labs and is the exclusive licensor to UNIX-based system software providers.

Headquartered in Lindon, Utah, SCO has a worldwide network of thousands of resellers and developers. SCO Global Services provides reliable localized support and services to partners and customers. For more information on SCO products and services, visit www.sco.com.

SCO, SCO OpenServer, and the associated SCO logo, are trademarks or registered trademarks of The SCO Group, Inc. in the U.S. and other countries. UNIX and UnixWare are registered trademarks of The Open Group.

Team1 Systems, Inc.

Team1 Systems, Inc. was formed in 1997 in Pittsburgh, Pennsylvania with the emphasis on providing a level of quality and support that was lacking in the computer industry. Our goal is to provide computer hardware resellers and software developers a simplified and more profitable means of supplying high quality servers, workstations and support to their end-user clients.

Our unique services include using our own technicians for onsite support in North America. In addition, we offer operating system support and no direct sales to end-users.
